

Angler Series Bike Racks, SAS Models

The bike racks in the Angler Series consist of separate wheel holder units, which are spaced 16" apart for loading from one side. Double-side loading models are also available. Bike holders are designed to accommodate all sizes of bike wheels.

Wheel holders are welded units made of .5" steel rod. The base of each holder is welded to 1.5"x 1.5"x .1875" mild steel angle runners. Angle runners are provided with holes for anchoring.

- Custom lengths are available.
- Choice of three finishes:
 - Hot Dipped Galvanized
 - Powder Coating (weather resistant Polyester TGIC, 6-8 mils thick) in an unlimited range of colors.
 - Thermoplastic Coating (10-12 mils thick) in red, black, green, blue, gray, white, yellow and brown.
